EXPERIENCE

SHOPIFY DEVELOPER

Glyff

December 2023 - April 2026, United States

- Engineered dynamic and reusable custom sections using Liquid and JSON schemas, empowering store admins with highly flexible and easily customizable layouts.
- Led the integration of third-party Shopify apps and external REST APIs, developing custom JavaScript logic to ensure seamless functionality and resolve app conflicts.
- Built interactive front-end features and tailored UI components using modern JavaScript, optimizing user experience and minimizing reliance on heavy external libraries.
- Collaborated closely with stakeholders to translate complex business requirements into custom, high-performing e-commerce functionalities.

FRONT-END DEVELOPER

Clorian

April 2024 - September 2025, Spain

- Developed dynamic and scalable interfaces using React, TypeScript, CSS/SASS, and jQuery, prioritizing user experience and performance.
- Collaborated in Scrum teams with designers and backend developers, ensuring iterative and high-value deliveries.
- Applied Vitest and other testing tools to guarantee code quality and reduce production errors.
- Performed maintenance and performance optimization on existing applications, achieving faster load times and improved usability.
- Built internal, cross-platform applications with Tauri, streamlining the company's internal processes.
- Actively collaborated in translating designs into functional code, maintaining visual fidelity and brand consistency.
- Contributed to the development of a native component library, implementing low-level solutions with minimal dependencies.
